

OCCLUSAL SPLINT THERAPY

(Diagnosis & Treatment of Occlusal problems & TMDs through Programmed treatment planning.)

25th and 26th November, 2017
At Vits Hotel, Andheri, Mumbai.

MODULE-1 - (2 days)

DAY 1 - 9 AM TO 5 PM Lecture contents

1. Why there is need for occlusal splint therapy?
2. Understanding of masticatory apparatus.
3. Understanding & examination of TMJ anatomy & muscles of mastications.
4. Imaging modalities for hard & soft components of TMJ (understanding of TMJ CT& MRI).
5. Understanding of normal occlusion & occlusal problems & their causes.
6. Understanding of disastrous sequelae of occlusal interferences & unstable occlusion.
7. THROUGH Understanding of TMDS (myofascial pain, internal disc derangement (why do you get clicking sound in TMJ) & osteoarthritis.
8. Treatment planning of TMDS.
9. Types of occlusal splints.
10. What occlusal splint can do & cannot do.
11. How to deliver anterior deprogrammer & full coverage occlusal splint to patient & instructions to patients.
12. How to do reprogramming of occlusal splints & recalls.
13. How to fabricate full coverage occlusal splint with customised anterior guidance.
14. What next after occlusal splint therapy got over.
15. Case reports and video testimonial of TMDs & occlusal splints therapy patients.
16. Case reports of treatment of occlusal problems patients (FMR).
17. Differential diagnosis of myofascial pain from other dental & orofacial pain.
18. How to use face bow & semi adjustable articulator for occlusal analysis & occlusal splint fabrication?

DAY 2 - 9 AM TO 5 PM

DEMONSTRATION 9 AM TO 1 PM

1. How to record & transfer facebow on articulator.
2. How to record CR bite of patient.
3. Mounting of models on articulator & fabrication of anterior deprogrammer.
4. Fabrication of full coverage occlusal splints with customised anterior guidance (wax pattern).

HANDS ON BY PARTICIPANTS ON 2 PM TO 5 PM

1. Recording of facebow.
2. Fabrication of Anterior Deprogrammer.
3. Fabrication of full coverage occlusal splint with customised anterior guidance (wax pattern).
4. How to fabricate anterior deprogrammer.

MODULE 2 (after three weeks from 1st module)

Start to end fabrication and insertion of full coverage Occlusal Splint with customised anterior guidance to your (participant) own patient (limited seats).

Course fees for Module I

Module I	Till 31 Oct. 2017	From 1 Nov. 2017
Day 1 + Day 2	13,000/-	15,000/-
Day 1 + Day 2 (First Half)	10,500/-	12,500/-
Only Day 1	8000/-	10,000/-

Dr. Avinash Kshar BDS, MDS
 PROF, HOD & P. G. Guide
 Dept. of OMDR, V.P.D.C. & H. Sangli

Would you like to treat Migraines aches / pain in the neck / shoulder / back because every headache is not migraine and every neck or back ache is not spondylitis and we dentists have the power to identify and treat such patients. Join us for a 2 day intense practical training with practical tips for general as well as post graduate dentist.

Dr. Avinash Kshar has a special interest in the treatment of occlusal problem and TMDs through Programmed treatment planning. He has been invited as a guest speaker at various dental conferences. He has a total clinical experience of 17 years in diagnosis and management of TMDS and an academic experience of 13 years. He has done his graduation from VYWS Dental College, Amravati uni. in 1999.

He has completed his post graduation from the prestigious **Government Dental College And Hospital, Mumbai in the year 2004.**

He is BDS & MDS examiner & subject expert for Oral Medicine and Radiology in staff selection committee at MUHS Nasik.

He has presented papers and conducted courses at various colleges and national conferences. He is the recipient of best symposium award for orofacial pain at national conference. He has enormous publications in various national and international journals.

He is fellow of **Indian Society of Oral Implantologist**. Actively participated in preconference course taken by **Dr. JEFFERY OKESON SIR** in diagnosis and TREATMENT of TMDS & orofacial pain in **INDIA** in 2013. Director of SGK Dental clinic along with director Dr. Sanyogita Kshar DSD Specialist at Mumbai.

RESEARCH ACTIVITIES:

1. Study Titled "CT Scan evaluation of TMJ Arthritis in Localized Osteoarthritis & Rheumatoid Arthritis" is carried out as a part of MDS Curriculum by me.
2. Study titled "Distribution of signs and symptoms of Temporomandibular Joint Disorder" in adults and its association with dentition status in 300 patient in our OMDR DEPT by PG student under my guidance.
3. Study titled "Treatment of myofascial pain patients using short wave diathermy and full coverage occlusal splint therapy-A comparative study" in 30 patient in our OMDR DEPT by PG student under my guidance.

Benefits from the course:

1. Diagnosis of TMDS with ease & confidence in your clinical practice.
2. Instant fabrication of Anterior deprogrammer by you in your clinic.
3. You will be able to formulate treatment plan for TMD cases.
4. You will be able to Diagnose & select cases if the patient requires FMR or not.
5. You will be able to differentiate myofascial pain (TMD) from other dental pain & referred orofacial pain.
6. You will be able to take Face bow & Bite of patient for occlusal splint
7. You will be able to design & fabricate occlusal splint.
