Testimony of Candidates...

"It was indeed a good experience . When I go back I will do All on 4 with lot of knowledge and confidence. Thanks to Dr. Anu and Noble Biocare for wonderful opportunity".

-Dr. Shobha

"I have been practicing since 17 years. The most amazing thing about the course is immediate loading which patient always prefers. The course was typically clinically oriented, compressed of counseling of patients to working on models and placing implants on patients. It's a good learning experience, I would like to recommend this course to other doctors".

-Dr. Smitha

"The best part of the course is, they let u work on the patient and they not only teach the procedure but also explains the complications that encounter while working. Each case is documented and discussed during the course time. Thanks to my mentor Dr. Anu".

-Dr. Shwetha

"It is highly skilled course. Thank you Dr. Anu and Nobel Biocare for giving me confidence to do All on 4 with immediate loading".

-Dr. Shalini

"My career in implantology started in 1st year Fellowship with ma'am. It's been a great pleasure to learn under her as she gives her 100% knowledge and clinical experience. I will do full mouth rehab with All on 4".

-Dr. Rama

"The best thing about the course is they let u place implants on patients which is followed up".

-Dr. Kamal

"Very happy and content to attend this unique implantology workshop. Revisited the core of the work which implantologist do. The program is designed in such a way that the basics is thought first followed by pre surgical aspects in detail. The course provides patients to get hands on experience. I would consider it as very beneficial program.

-Dr. Kallapa
