CHANDIGARH

LECTURES

ANIMATIONS

PATIENT DEMONSTRATIONS

*Dr. Moez Khakiani*

**This 5 day online masterclass is specially curated for the pandemic world. It gives you an opportunity to hear Dr. Khakiani speak on his favorite topic and ask him questions live, while in the comfort of your own space. Added, the 30-day unlimited access to live recordings makes it possible for you to revise and watch the master speak over and over again.**

**The optional 1 day hands-on allows you further opportunity to learn from this course, as you enjoy its unique training module that follows a 'tell-show-do-get it done on yourself' approach. This self-exercises help eliminate fear and gain confidence in treating reconstruction cases on your own.**

**Thanks to the interactive approach of past 130 batches, doctors have benefited immensely and begun implementation of the acquired knowledge and skills into their practice with utmost confidence.**

**Are you ready to learn the art of Full Mouth Rehab from the most sought-after speaker in the country?**

**NOTE: THE CONTENT OF THIS COURSE IS EXACTLY THE SAME AS THE OFFLINE EVENT.**

# HERE ARE FEW THE QUESTIONS THAT THE COURSE WILL ADDRESS:

- When to do a Full Mouth Rehabilitation?
- How to plan a case of FMR?
- What is the role of condylar guidance in FMR cases?
- Which articulator to use?
- How to record and transfer a facebow?
- How to determine and register the correct centric relation?
- How to determine the correct Vertical Dimension, especially in collapsed bite?
- How to perform a test drive?
- What are the steps to follow during tooth preparation?
- What is the recommended occlusion in FMR cases?
- What are the end goals when treating patients for full mouth reconstruction?
- How to protect the restorations from fracture following reconstruction?
- How to communicate with the laboratory during FMR cases?
- How to choose the best material for compromised dentition?
- How to do FMR using composite resin?
- How to manage FMR patients who do not have time or money to get treatment?
- How to convince patients for FMR?
